

REPRODUCTIVE ENDOCRINOLOGY

The beginning of the reproductive cycle of life – diagnosis tests may include:

- Oestradiol
- FSH
- LH
- Progesterone
- Androstenedione
- DHEA sulphate
- Testosterone
- SHBG
- Prolactin

FEMALE INFERTILITY

LH
FSH
Prolactin
Oestradiol (17-Beta)

MALE INFERTILITY

FSH
LH
Testosterone
Prolactin
SHBG

POLYCYSTIC OVARY SYNDROME

Testosterone
TSH
Glucose
FSH
DHEA s
Insulin
LH
17 Hydroxyprogesterone
Lipid Profile
Prolactin
Androstenedione
SHBG
Antimullerian Hormone *

A fasting sample is recommended.

* Offered upon request

IMPOTENCE PROFILE

Testosterone
Prolactin
SHBG
Glucose
HbA1C

A fasting sample is recommended.
